new topic by the agent

The screenshot displays a user interface for a chat application. At the top, the user's name 'gfddd' is shown next to their profile picture and a status indicator '16956'. Below this, there are several tabs or filters: '@Variables('Application\_status')', 'Add', '#Blue', and '+ Add'. A navigation bar contains icons for information, users, messages, a refresh button, a home button, a search icon, and a settings icon. The main content area is divided into two sections. The left section shows a status 'Awaiting Agent' with a dropdown arrow and a count of '4'. Below this is a table with columns for 'Agent', 'Team', and 'Followers'. The 'Agent' column shows a profile picture, the 'Team' column shows a smiley face emoji, and the 'Followers' column shows a plus sign. The right section is titled 'Messages' and shows an email notification card. The card has a dark blue header with 'EMAIL' and a white body with 'To: TU Test user 01/07 (tester.test08@gmail.com)'. At the bottom of the screen, there are some navigation icons.
