The screenshot shows a web browser window displaying an article from MailSPECCOMMUNIGATE. The article title is "How to Configure the MAPI Connector with Outlook 2019?". The content includes instructions on downloading the MAPI connector, installing it, and configuring it in Outlook. A Windows Mail dialog box is overlaid on the article, showing the "General" tab with the following text: "The following profiles are set up on this computer:" followed by an empty list box. Below the list box are buttons for "Add...", "Remove", "Properties", and "Copy...". The "Add..." button is highlighted with a red box. Below these buttons are radio button options: "Prompt for a profile to be used" (unselected) and "Always use this profile" (selected). At the bottom of the dialog are "OK", "Cancel", and "Apply" buttons. The article text below the dialog box reads: "On the following screen, make sure you choose the option for 'Manual setup or additional server types', where you will have the **COMMUNIGATE** Pro Server listed under 'Other'."
