JAN 27 newstest

test me

after editing content and change the location of post

The screenshot displays a web application interface. At the top, there's a header with the text "test" and a sub-header "145". Below this, a message box is visible with the text "To: Test user (tester.deck12@gmail.com)" and "Cc (1): user04 (tester.deck4@gmail.com)". The message content reads "EMAIL REGRESSION CHECK: Send to owner and ccs". On the left side, there's a sidebar with a section titled "ASSIGNMENT" containing a table with columns "Agent", "Team", and "Followers". The table has three rows with different colored circles (red, orange, green) in the "Agent" column. Below the table, there's a section "USER & CC'S" with a row for "Test user" (tester.deck12@gmail.com). The sidebar also shows a "32 secs" timer and a "User Waiting" status. The main content area has a "Messages" tab and a "History" tab. The overall layout is clean and modern, with a light gray background and blue accents.
