new topic by the agent

The screenshot displays a user interface for a chat or messaging application. At the top, the user's name 'gfddd' is shown, along with a profile picture and a status '16956'. Below this, there are several tabs or filters: '@Variables('Application\_status')', 'Add', '#Blue', and '+ Add'. The main area is divided into two sections. On the left, there is a status bar that says 'Awaiting Agent' with a dropdown arrow and a '4' in a circle. Below this, there are three columns: 'Agent' (with a person icon), 'Team' (with a smiley face icon), and 'Followers' (with a plus sign). At the bottom of this section, there are three items: 'Next event' (with a minus sign), '3 mins Ticket Open', and '3 mins User Waiting'. On the right, there is a 'Messages' section with a header 'Messages' and a list of messages. The first message is from 'Test user 01/07 (tester.test08@gmail.com)' and is marked as 'EMAIL'.
