The screenshot shows a web browser window displaying an article from MailSPECCOMMUNIGATE. The article title is "How to Configure the MAPI Connector with Outlook 2019?". The content includes instructions on downloading the MAPI connector, installing it, and configuring it in Outlook. A red box highlights the "Add..." button in the Outlook "Mail" dialog box, which is used to add a new profile. The dialog box also shows options for when to use the profile: "Prompt for a profile to be used" (unselected) and "Always use this profile" (selected).

On the following screen, make sure you choose the option for "Manual setup or additional server types", where you will have the [CommuniGate Pro Server](#) listed under "Other".
