Test tiny mice

The screenshot displays a web interface for a ticketing system. On the left, a sidebar contains navigation options like 'Mine', 'Test QA', 'I'm Following', 'My Team's', 'My Pending', 'INBOX', and 'Lists'. The main content area shows 'No Tickets' with the message 'Enter a search term or select fields to start searching.' Below this, a red-bordered box contains the word 'Error' and a 'Retry' button. Red arrows are numbered 1 through 4, pointing to the search bar, the 'New Search' button, the 'Error' message, and the 'Retry' button, respectively. On the right, a 'Refine Search' panel is visible. A developer console on the far right shows a JavaScript error: 'Uncaught TypeError: Cannot read property 'id' of undefined', with a stack trace pointing to a function named 'open'.
