Test tiny mice

The screenshot displays a web application interface with a search results page. The main content area shows "No Tickets" with the message "Enter a search term or select fields to start searching." The interface includes a sidebar on the left with navigation options like "Mine", "Test QA", "I'm Following", "My Team's", "My Pending", "INBOX", and "Lists". A "Refine Search" panel is visible on the right, showing search criteria and filters. A developer console on the far right shows a JavaScript error: "Uncaught Error: No element found for selector: '#error'". Red arrows and boxes highlight specific elements: arrow 1 points to the search input, arrow 2 points to the "New Search" button, arrow 3 points to the "New Search" button, and arrow 4 points to the "Error" message in the developer console.
