What is Lorem Ipsum? Simply put, lorem ipsum is **dummy text** that occupies the space where the real content should be. If you are designing an online business such as a blog and you do not have content already, you use a lorem ipsum generator to create placeholder or dummy text to show you how the business will look once you add the real content. What is Lorem Ipsum? Simply put, lorem ipsum is **dummy text** that occupies the space where the real content should be. If you are designing an online business such as a blog and you do not have content already, you use a lorem ipsum generator to create placeholder or dummy text to show you how the business will look once you add the real content. What is Lorem Ipsum? Simply put, lorem ipsum is **dummy text** that occupies the space where the real content should be.
