Test tiny mice

The screenshot displays a web application interface for a ticketing system. The main content area shows a search results page with the message "No Tickets" and "Enter a search term or select fields to start searching." The interface includes a sidebar with navigation options like "Mine", "Test QA", "I'm Following", "My Team's", "My Pending", "INBOX", and "Lists". A search bar is located at the top of the main content area. The "Refine Search" panel on the right shows search criteria for Author, Date Written, Subject, Attachment, File Extensions, Ticket Properties, Ticket Owner, and Department. A red box highlights the "Error" message in the "Refine Search" panel, with a red arrow pointing to it from the number "4". Another red arrow points to the search bar with the number "1". A red arrow points to the "New Search" button in the sidebar with the number "3". A red arrow points to the "Error" message in the developer console with the number "4". The developer console shows a JavaScript error: "Uncaught ReferenceError: \$ is not defined". The error message is highlighted with a red box. The developer console also shows the HTML structure of the page, including a search bar and a "New Search" button.
