The screenshot displays the CloudQAtest configuration interface. On the left, a table lists various field types and their associated configurations. The table has columns for 'Name', 'Field Type', and 'User Forms'. The 'Single-line Text' field type is highlighted with a red box. On the right, a configuration panel for the 'Single-line Text' field is shown, with a red box highlighting the 'Agent Validation' dropdown menu, which is set to 'Require agent to provide value'.

Name	Field Type	User Forms
Toggle button	Toggle	Default, Registration TEST, Form Test, Custom Department 2
Date	Date	Default, Registration TEST, Form Test, Custom Department 2
Date and time	Date & Time	Default, Registration TEST, Form Test, Custom Department 2
