The screenshot shows a web browser window displaying a support article from MailSPEC. The article title is "How to Configure the MAPI Connector with Outlook 2019?". The article content includes instructions on downloading the MAPI connector, extracting the archive, and installing it. It also provides steps for configuring Outlook, such as adding a new profile or modifying an existing one. A red box highlights the "Add..." button in the Outlook "Mail" dialog box, which is overlaid on the article content. The dialog box shows "The following profiles are set up on this computer:" with an empty list and buttons for "Add...", "Remove", "Properties", and "Copy...". Below the list, there are radio buttons for "Prompt for a profile to be used" and "Always use this profile", with the latter selected. The "OK", "Cancel", and "Apply" buttons are at the bottom of the dialog.
